## CoQ-Zyme 30™

**Why you may need CoQ-Zyme 30™:** **CoQ-Zyme 30™** is an exclusive formulation containing 30 mg of emulsified CoQ10. CoQ10, the ubiquitous yellow vitamin-like substance also known as ubiquinone, is an essential lipid-soluble antioxidant that is making a lot of headlines lately. While prolific CoQ10 research has been conducted in regards to the biochemical role CoQ10 plays in normal cardiovascular functioning, new streams of research have been linking this co-enzyme with cognitive function, immune function and aging, with CoQ deficiencies being associated with numerous unwanted conditions.

**Why your healthcare practitioner recommends CoQ-Zyme 30™:** In a double blind clinical study, daily ingestion of Biotics emulsified CoQ10 for 4 weeks increased plasma CoQ10 levels by 210%, equivalent to 90-100 mg of dry CoQ10 which is the most frequently used commercial form. Furthermore, **CoQ-Zyme 30™** increased serum levels 40% more than dry CoQ10 powder, which increased serum levels in only 57% of subjects. Not only is it more economical, our propriety microemulsion process ensures that **CoQ-Zyme 30™** will provide optimal clinical results. As always, you can count on Biotics Research Corporation to offer superior nutritional products supplying "The Best of Science and Nature".

### Supplement Facts

Serving Size: 1 Tablet

|  | Amount Per Serving | % Daily Value |
|--|--------------------|---------------|
| Coenzyme Q10                                       | 30 mg              | *             |
| Superoxide Dismutase<br>(from vegetable culture †) | 30 mcg             | *             |
| Catalase (from vegetable culture †)                | 30 mcg             | *             |

\* Daily Value not established

**Other ingredients:** Cellulose, stearic acid (vegetable source), gum arabic, magnesium stearate (vegetable source), modified cellulose gum, silica and food glaze.

† Specially grown, biologically active vegetable culture containing naturally occurring and/or organically bound phytochemicals including polyphenolic compounds with SOD and catalase, dehydrated at low temperature to preserve associated enzyme factors.

**RECOMMENDATION:** One (1) tablet each day as a dietary supplement or as otherwise directed by a healthcare professional.

**KEEP OUT OF REACH OF CHILDREN**

Store in a cool, dry area.

Sealed with an imprinted safety seal for your protection.

NDC #55146-02616 Rev. 9/11
